

Flight Fiber Arrives at The Mills in Sidney, OH

NKTelco Partnership Elevates Modern Living

Sidney, OH – February 19, 2025 – NKTelco announces they are bringing Flight Fiber, their Multi-Gigabit Fiber Internet to The Mills, a premier residential community in Sidney, OH. Thanks to an exclusive partnership with real estate developer Crawford Hoying, all 216 units at The Mills will be equipped with NKTelco’s blazing-fast Flight Fiber Internet upon project completion in September 2025. With advanced Fiber-to-the-Unit (FTTU) technology, NKTelco will deliver a seamless, ultra-reliable internet experience designed to meet the evolving digital needs of modern residents. Flight Fiber reinforces NKTelco’s community investment and leadership in fiber-optic infrastructure in the region.

"As demand for high-speed, dependable internet access continues to rise, we are proud to partner with Crawford Hoying to bring industry-leading fiber technology to The Mills," said Preston Meyer, President and General Manager of NKTelco. "With dedicated fiber to every unit, residents will enjoy symmetrical upload/download speeds, ultra-low latency, and the capacity to support multiple devices simultaneously setting a new standard for residential connectivity in Sidney."

Crawford Hoying, the property manager of The Mills, recognizes the critical role that premium connectivity plays in shaping a high-quality residential experience.

"We are excited to be part of the Sidney community and recognize the increasing demand for high-speed internet in modern housing options," said Erik Wood, Vice President of Property Management at Crawford Hoying. "Our goal is to deliver an elevated living experience, and integrating Flight Fiber into our community supports this vision. With leasing already underway, The Mills is poised to become one of Sidney’s most technologically advanced residential communities—ensuring residents enjoy the very best in modern living and digital convenience."
